

NINJUTSU SHL-T302

Product Description:

NINJUTSU e-TRANSAXLE TE is a fully synthetic low viscosity fluid for automatic transmission with or without slip controlled lock-up clutch system. Reduces friction in automatic gearbox to optimize fuel economy. e-TRANSAXLE TE provides full protection to all parts of the transmission system and guarantees a reliable performance even in high loads. Superior automatic transmission response and smoother gear shifts.

Applications / Benefits:

- Helps with cooling and electrical compatibility inside e-motor/transaxle assemblies
- Lower than typical ATF to improve efficiency
- Lubricates gears and bearings in hybrid/e-axles
- Reduces friction and improves drive efficiency compared to older ATF types.

Toyota e-Transaxle fluid TE

Health, Safety & Environment

Health and Safety

This product is unlikely to present any significant health or safety hazard when properly used in the recommended application and good standards of personal hygiene are maintained.

Avoid contact with skin. Use impervious gloves with used oil. After skin contact, wash immediately with soap and water.

Guidance on Health and Safety is available on the appropriate Safety Data Sheet, which can be obtained from your Shinolub representative.

Protect the Environment

Take used oil to an authorised collection point. Do not discharge into drains, soil or water.
